We are pleased to once again offer summer camps for students aged 3-6. In addition to being exciting full or half-day activities, these camps offer integral learning opportunities that are not usually offered during the regular preschool year. We pride ourselves on offering students the chance to learn skills that are applicable to their daily lives. This year includes the following fun camps:

**June 24th - 28th Edible Science**  
*Half Day Camp \$140 / Full \$275*

Exploring science while creating something edible. This class lets children ask questions, make predictions and help create something they can eat! Skills include measuring, counting, following directions, and using scientific methods! Please indicate allergies when filling out forms.

**July 8th - 19th Engineers Workshop**  
*Half Day Camp \$275 / Full \$550*

Students will help design their own machine! We will first explore gears, pulleys and levers. Using our creation station full of supplies, imagination and foundation of engineering concepts we will then build our own machine to take home!

**July 22nd - August 2nd Puppet Theater**

Get ready for the next generation of puppeteers!! Students will be creating their own puppets, stories and sets for an amazing 2 week creative collaboration!

*Half Day Camp \$275 / Full \$550*

**August 5th - 9th Jam Session**

*Half Day Camp \$140 / Full \$275*

Kids will be jamming to their own songs and making their own instruments. We will create the songs together and then perform the last day of class. Children who want to may also perform their own solo pieces!
